To Whom It May Concern

Dear Sir/Madam,

It is a pleasure to write this letter of recommendation for Ben Fynes. I have had the privilege of working closely with him at CIA FIRST International School as his direct supervisor following his transition to our Student Support Services (SSS) team as a UES Multilingual Specialist (MLL). I oversaw his growth first as the SSS Coordinator and subsequently as the Director, up until the conclusion of my 8-year tenure at the school in 2026.

Ben joined the school community in 2020 as a Grade 4 homeroom teacher, where he quickly distinguished himself as an educator deeply committed to student wellbeing, social-emotional growth, and holistic child development. During his time in the classroom, Ben was an exceptional partner to the SSS department. Rather than viewing support in isolation, he proactively collaborated with our specialists, constantly seeking insights and asking targeted questions on how to best support the diverse learning and language needs of his students. He consistently went above and beyond to collect behavioral and academic data and diligently applied the strategies provided by our team. His collaborative spirit and dedication made the inclusion and support of students with high needs successful within his classroom.

Driven by a genuine passion for making academic content accessible to multilingual learners, Ben transitioned into the role of an MLL Specialist in 2024. In this capacity, he has demonstrated remarkable professional growth. Ben thrives in environments where the vision and operational parameters are clear. He is a truly inquisitive educator who seeks deep understanding, absorbs constructive feedback from his leads and coordinators, and deliberately applies it to refine his instructional practice.

Above all, Ben is an incredibly caring educator. He is a reliable, reflective practitioner who works well within multi-disciplinary teams. I have no doubt that his empathy, collaborative mindset, and commitment to inclusive education will make him a valuable asset to your school community.

Sincerely,

Emmy Cheung Tat
