

The World in Motion

GRADE 4 SOCIAL STUDIES · S2 UNIT 1 · MLL PERFORMANCE TASK CHECKLIST

Name: _____ Class: _____ Date: _____

You have already done great research. Now it's time to show your **thinking**. Real geographers don't just list facts — they explain *why* people adapt the way they do, and they compare places using evidence. Today I am looking for **three things** in your slideshow. Use this checklist to check what you have, and add your sentences before you present.

1 Real Environmental Adaptations

- 1 Your slideshow has at least 2 specific, real adaptations — things people actually do because of their environment.

____ / 4

☐ I can find **at least 2** specific adaptations in my slideshow. I will write them here:

1. _____
2. _____

Tip: "People in the rainforest build homes using wood and palm leaves" is specific. "They build houses" is too general.

2 Cause & Effect Explanation

You explain *why* — the environment is the cause, the adaptation is the effect.

____ / 4

☐ I have at least **one** cause & effect explanation in my slideshow. I will write it here (or write a new one using the frame below):

People in _____ use / build / wear _____ because _____ .
This helps / allows them to _____ .

3 Compare & Contrast Sentence

You write at least one sentence that connects your two places — a similarity *and* / or a difference.

____ / 4

☐ I have a compare & contrast sentence in my slideshow. I will write it here (or write a new one using the frame below):

Both _____ and _____ .
However, _____ while _____ .

Scoring:

4 = Clear and complete | 3 = There but incomplete | 2 = Attempted | 1 = Very little | 0 = Not yet

Total ____ / 12

Average ____ / 4
